9201 PROLONGED FETAL BRADYCARDIA IN PARTURIENTS WITH AND WITHOUT EPIDURAL ANESTHESIA -- S Persinger, K Rasmus, D Kotelko, R Rottman, et al

9202 THE EFFECT OF EPIDURAL BUPIVACAINE VERSUS INTRAVENOUS NALBUPHINE ON FETAL HEART RATE DURING LABOR -- JM McGrath, DH Chestnut, CS DeBruyn

9203 ECHOCARDIOGRAPHIC CHANGES DURING CESAREAN SECTION -- J Baratta, D Cziner, M Zakowski, et al

9204 THROMBELASTOGRAPHY FOLLOWING ASPIRIN INGESTION IN PREGNANT AND NON-PREGNANT SUBJECTS -- CEP Orlikowski, AJ Payne, J Moodley, DA Rocke

9205 MICROCATHERET CONTINUOUS SPINAL ANALGESIA FOR LABOR: POTENTIAL FOR NEUROLOGIC INJURY WITH 1, 1.5 AND 2% LIDOCAINE -- CH Leicht, G Vasdev, BK Ross

9206 EFFECT OF CHANGES IN LABOR ANALGESIC PRACTICE ON LABOR OUTCOME -- JS Naulty, R Smith, R Ross

9207 EFFECTS OF SIMULATED MATERNAL HYPERVENTILATION ON THE HUMAN UTERINE ARTERY IN VITRO -- MS Suresh, TD Johnson, SH Nelson, MM Steenberg

9208 DOES EPIDURAL ANESTHESIA ALTER UTERINE BLOOD FLOW AND PLASMA RENIN ACTIVITY DURING HEMORRHAGIC HYPOTENSION IN GRAVID EWES? -- RD Vincent, DH Chestnut, J McGrath, et al

9209 INTERACTION BETWEEN SPINAL A3ADRENERGIC AND CHOLINERGIC CONTROLS ON BLOOD PRESSURE REGULATION -- C Tong, JC Eisenach, JA Williams

9210 PLACENTAL TRANSFER AND DISPOSITION OF COCAINE IN THE PREGNANT SHEEP: PRELIMINARY REPORT -- HO Morishma, CR Chao, T Masoaka, et al

9211 THE EFFECT OF INITIATING AN OBSTETRIC ANESTHESIOLOGY SERVICE ON RATE OF CESAREAN SECTION AND RATE OF FORCEPS DELIVERY -- DD Larson

9213 THE HIV POSITIVE PARTURIENT AND REGIONAL ANESTHESIA: CLINICAL AND IMMUNOLOGIC RESPONSE -- SC Hughes, PA Dailey, D Landers, et al

9214 ESTROGEN MEDIATES ENHANCED CARDIAC TOXICITY OF COCAINE IN PREGNANCY -- J Kurtzman, JM Thorp, S Perry, et al

9215 INTRATHECAL NEOSTIGMINE POTENTIATES THE ANALGESIC EFFECTS OF INTRATHECAL CLONIDINE -- DJ Detweiler, JC Eisenach

9216 TOLERANCE OF CRICOID PRESSURE BYCONSCIOUS VOLUNTEERS -- RG Vanner

9217 THE REDUCTION IN UPPER ESOPHAGEAL SPHINCTER PRESSURE WITH THIOPENTAL -- RG Vanner, BJ Pryle, JP O'Dwyer, et al

9218 PHENYLEPHRINE FOR HYPOTENSION IN HIGH RISK PARTURIENTS DURING CESAREAN SECTION -- M Zakowski, T Otto, J Baratta, et al

9219 THROMBOELASTOGRAPHY AND STANDARD COAGULATION TESTS IN PRE-ECLAMPTIC PATIENTS -- GR Haynes, WJ Martin, JD Baker, et al

9220 STORAGE AND REUSE OF NARCOTICS FOR EPIDURAL INJECTIONS PROMOTES MICROBIAL GROWTH -- LM Newman, SL Young, J Vazquez

9221 ORGAN SYSTEM FAILURE IN OBSTETRICS AS A PREDICTOR OF RISK AND OUTCOME -- RB Becker, B Nies, MP Thiet, et al

9223 THE VALIDATION OF ARTERIAL OXYGEN SATURATION MEASUREMENTS IN UTERO USING PULSE OXIMETRY -- AP Harris

9224 DOES PAINFUL LABOR INCREASE SPINAL CHOLINERGIC ACTIVITY IN HUMANS? -- JC Eisenbach, DD Hood, C Tong

9225 MICROCATHER CONTINUOUS SPINAL ANESTHESIA: POTENTIAL FOR NEUROLOGIC INJURY IN THE SUPINE POSITION -- CH Leicht, G Vasdev, BK Ross
HEADACHE IN PARTURIENTS AFTER DURAL PUNCTURE: A COMPARISON OF THREE NEEDLE TYPES -- VA Arkoosh, MC Norris, BL Leighton, et al

A COMPARISON OF EPIDURAL, INTRATHECAL AND INTRAVENOUS SUFENTANIL FOR LABOR ANALGESIA -- WR Camann, RA Denney, ED Holby, S Datta

INCIDENCE OF CESAREAN SECTION DOES NOT INCREASE WITH INTRASPINAL ANALGESIA FOR LABOR -- KG Knape, R Rand

RELATIONSHIPS AMONG INTRAVENOUS HYDRATION, EPHEDRINE DOSE, AND MATERNAL AND NEONATAL COLLOID OSMOTIC PRESSURE AT CESAREAN DELIVERY -- MA Hauch, BL Hartwell, R Gaiser, S Datta

MONITORING PRACTICES FOR EPIDURAL ANALGESIA IN OBSTETRICS -- ME Minnich, SJ Minnich

EFFICACY OF INTRATHECAL MEPERIDINE AS THE SOLE ANESTHETIC FOR POSTPARTUM TUBAL LIGATION -- SE Dickerson, SL Bailey

THE MATERNAL AND NEONATAL EFFECTS OF DESFLURANE ANESTHESIA FOR CESAREAN SECTION -- TK Abound, J Zhu, M Richardson, et al

CONCEALED AORTOCAVAL COMPRESSION DURING EPIDURAL PLACEMENT -- PJD Andrews, M Juneja, WE Ackerman, B Rigor

BETADINE - SEPTIC OR ANTISEPTIC? -- DJ Birnbach, EM Kitain, O Murray, et al

COMPARISON OF 25G WHITACRE VS 24G SPROTTE SPINAL NEEDLES FOR CESAREAN SECTION -- DC Campbell, TJG Pavy, ML Planagan, et al

THE ROLE OF ENDOGENOUS VASOPRESSIN IN MAINTAINING BLOOD PRESSURE FOLLOWING SPINAL ANESTHESIA -- H Carp, D Garvey R Vadhera, A Jayaram

EFFECT OF CONTINUOUS FETAL COCAINE INFUSION ON FETAL CEREBRAL BLOOD FLOW AND METABOLISM -- CR Choa, HO Morishima, KE Jack, SS Daniel

LIDOCAINE PHARMACOKINETICS AFTER EPIDURAL ANESTHESIA FOR CESAREAN SECTION -- JW Downing, RF Johnson, M Wood, N Herman
NEUROMUSCULAR BLOCKING PROPERTIES OF ORG 9426 IN POSTPARTUM PATIENTS -- JL Hawkins, MJ Rivers, RE Dalmeida, TH Joyce

ILIOINGUINAL ILIOHYPOGASTRIC NERVE BLOCKS - BEFORE OR AFTER CESAREAN SECTION? -- HJ Huffnagle, BL Leighton, MC Norris, VA Arkoosh

DOES EPHEDRINE REMAIN THE VASOPRESSOR OF CHOICE FOR TREATMENT OF HYPOTENSION DURING RITODRINE INFUSION AND EPIDURAL ANESTHESIA? -- JM McGrath, DH Chestnut, RD Vincent, et al

EPIDURAL CATHETERS GONE ASTRAY: CAN THEY BE SAVED? -- A Stein

POTENTIAL METAL PARTICLE CONTAMINATION OF EPIDURAL AND SUBARACHNOID SPACES USING THE NEEDLE-THROUGH-NEEDLE TECHNIQUE -- JD Molin, KG Knape, FJ Husain

THE EFFECT OF MAGNESIUM ON COCAINE TOXICITY -- S Mouton, J Horn, G Singh, et al

A COMPARISON OF BOLUS INJECTION VS CONTINUOUS INFUSION OF LIDOCAINE DURING CESAREAN DELIVERY -- JS Naulty, J Dominguez

ALTERED HEART RATE RESPONSE TO HYPOXIA IN WOMEN WHO DEVELOP PREECLAMPSIA -- SK Palmer, JC Berman, S Zamudio, et al

MATERNAL AGE IN PRIMIGRAVIDAE AS A FACTOR IN OBSTETRIC OUTCOME -- M Patel, B Morgan

PROTEIN BINDING DURING PREGNANCY -- F Rosinia, AM Bader, R Fragneto, et al

CONCENTRATION OF FENTANYL IN COLOSTRUM AFTER AN ANALGESIC DOSE -- PL Steer, CJ Biddle, WS Marley, et al

THROMBELASTOGRAPHY AND SONOCLOT ANALYSIS IN THE HEALTHY PARTURIENT -- PL Steer, H Krantz
9252 EVALUATION OF THE POTENTIAL EMBRYO TOXICITY OF PROPOFOL USING AN IN VITRO FERTILIZATION QUALITY CONTROL TEST (HAMSTER SPERM MOTILITY ASSAY)

9253 RITODRINE AND NITROGLYCERIN TOCOLYSIS AT CESAREAN BREECH DELIVERY -- C Wade, D Farine SH Rolbin, et al

9254 STATISTICAL PROCESS CONTROL (SPC) IN OB ANESTHESIA SERVICE: SIX YEARS EXPERIENCE -- P Youngstrom, D Boyd, MF Rhoton

9255 CORRELATES OF ST-SEGMENT CHANGES DURING CESAREAN SECTION UNDER REGIONAL ANESTHESIA -- MI Zakowski, J Baratta, S Ramanathan, H Turndorf

9256 EFFICACY OF ORAL NALTREXONE FOR TREATMENT OF EPIDURAL MORPHINE SIDE EFFECTS -- TK Abboud, J Zhu, M Donovan, A Reyes

9257 IN SEARCH OF THE OPTIMAL SPINAL NEEDLE -- E Abouleish, M Mitchell, D Warters

9258 BRADYCARDIA FOLLOWING EPIDURAL BLOOD PATCH IN PARTURIENTS -- WE Ackerman, PJ Andrews, M Juneja, et al

9259 SIMPLE IDENTIFICATION OF LOCAL ANESTHETICS COMMONLY USED IN OBSTETRIC ANESTHESIA -- WE Ackerman, PJ Andrews, M Juneja, et al

9260 VARIANCE IN THE BARI CITY OF BUPIVACAINE .75% IN 8.25% DEXTROSE: IS THIS A HYPERBARIC DRU G? -- GH Adkisson, JH Waters

9261 UPPER FACIAL EMG PROVIDES A CONTINUOUS OBJECTIVE MONITOR OF ANALGESIA DURING LABOR -- WE Ackerman, M Juneja, HL Edmonds

9262 SERUM LEVELS OF TUMOR NECROSIS FACTOR, INTERLEUKIN-1, INTERLEUKIN-2 AND INTERLEUKIN-6 IN THE PARTURIENT WITH PREECLAMPSIA -- Y Beilin, H Bernstein, L Mayer

9263 THE BELATED CORD GAS - ITS CLINICAL USEFULNESS -- E Bieber, D Kirk, R Rawlins, H Strassner

9264 MATERNAL CATECHOLAMINES DECREASED DURING CESAREAN SECTION WITH SUBARACHNOID BUPIVACAINE-OPIOID ANESTHESIA -- TF Boemer, MC Norris, H Schieren, et al

9265 AMBULATORY EPIDURAL ANESTHESIA FOR LABOR -- TW Breen, NE Oriol
9266  SPINAL MORPHINE AND FENTANYL FOR LABOR: A TECHNIQUE IN NEED OF REFINEMENT -- LE Caldwell, SM Shnider, M Rosen, C Fong

9267  THROMBOELASTOGRAPHIC STUDIES IN THE PARTURIENT -- C Campbell, WT Campbell

9268  A SURVEY ON THE AVAILABILITY OF OBSTETRICAL ANESTHESIA IN THE STATE OF INDIANA -- C Campbell, S Erhlinger

9269  AORTOCAVAL COMPRESSION AND SAFE POSITIONING -- SM Kinsella

9270  THE EFFECT OF EPINEPHRINE ON THE INCIDENCE OF FETAL HEART RATE DECELERATIONS FOLLOWING BUPIVACAINE EPIDURAL ANESTHESIA -- DD Larson, JC Silverton

9271  VARIATION IN EPIDURAL SPACE PRESSURE DURING PREGNANCY -- M Limm, TK Abboud, K Soo Hoo, et al

9272  EPIDURAL ANALGESIA IN PATIENTS WITH INTRAUTERINE FETAL DEATH -- A Maslow, T Breen, N Oriol

9274  THE EFFECT OF IV ERYTHROMYCIN ON GASTRIC VOLUMES IN POSTPARTUM PATIENTS UNDERGOING TUBAL STERILIZATION -- CH Moore, A Whilhite, G Bartolo, et al

9275  THE INCIDENCE OF POSTDURAL PUNCTURE HEADACHE IN MORBIDLY OBESE PARTURIENTS -- R Moreno, E Faure, RA Thisted

9276  LOW BACK PAIN FOLLOWING EPIDURAL BLOCK FOR POST PARTUM TUBAL LIGATION USING 3% 3CHLOROPROCAINE WITH SODIUM EDTA, 3% 3CHLOROPROCAINE WITH METABISULFITE OR 2% LIDOCAINE -- HA Muir, JL Buxbaum, LB Profeta, et al

9277  LABOR ANALGESIA WITH INTRATHECAL FENTANYL USING A COMBINED SPINAL - EPIDURAL TECHNIQUE -- H Muir, T Hanlon, TG Cheek, et al

9278  POSTOPERATIVE PAIN AFTER CESAREAN SECTION: EFFECT OF PREOPERATIVE SKIN INFILTRATION WITH 0.5% BUPIVACAINE -- T Pavy, DR Gambling, P Kliffer
DOES BARIETY PLAY A ROLE IN THE INCIDENCE OF SIDE EFFECTS RELATED TO INTRATHECAL MORPHINE? -- G Pinczower, C Chadwick, B Ross, et al

COMPARISON OF INTRATHECAL METHADONE AND FENTANYL FOR LABOR ANALGESIA -- J Ramanathan, M Martindale

MATERNAL AND NEONATAL EFFECTS OF CONTINUOUS INTRATHECAL SUFENTANIL FOR LABOR ANALGESIA -- R Sharp, TK Abboud, J Zhu, et al

THE USEFULNESS OF CONTINUOUS SPINAL ANESTHESIA FOR CESAREAN DELIVERY IN PREECLAMPTIC PATIENTS -- S Jawalekar, WA White Jr

ARE ECG CHANGES DURING CESAREAN SECTION (C/S) MERELY DUE TO CARDIAC SYMPATHETIC BLOCKADE? -- A Stein, JC Eisenach

AN IMPROVEMENT IN SPINAL EPIDURAL ANESTHESIA FOR CESAREAN SECTION -- A Swami, P Abbott, MB Morgan

COMPARISON OF SUFENTAN, BUPIVACAINE AND BUPIVACAINE/SUFENTA FOR EPIDURAL ANESTHESIA IN LABOR -- M Tamer, W Kwan B Chen

IMPLEMENTATION OF CRITICAL CARE OBSTETRICS -- NH Trolano, J Martin, RL Rolmond, et al

INTRAVENOUS NALBUPHINE INCREASES SUBSEQUENT ANALGESIC REQUIREMENTS OF CONTINUOUS SPINAL ANALGESIA FOR LABOR -- GM Vasdev, CH Leicht

EPIDURAL ANESTHESIA FOR POSTPARTUM TUBAL LIGATION USING EPIDURAL CATHETERS PLACED DURING LABOR -- RD Vincent, RW Reid

POST-CESAREAN PAIN RELIEF WITH KETEROLAC TROMETHAMINE AND EPIDURAL MORPHINE -- J Waters, M Hullander, A Kraft, et al

HIGH SPINAL ANESTHESIA FOLLOWING FAILED EPIDURAL ANESTHESIA FOR CESAREAN SECTION -- J Waters, B Laverty, T Scanlon, et al

THE IMPACT OF EPIDURAL ANALGESIA ON OBSTETRICAL PRACTICES IN A SMALL COMMUNITY HOSPITAL -- D Willian, C Campbell
A COMPARISON OF TWO DOSES OF EPIDURAL FENTANYL FOR CESAREAN SECTION USING CARBONATED LIDOCAINE -- I Yee, S Halpern, R Pittini, C Huh

SPINAL NEEDLE FLOW COMPARISON -- B Zucker-Pinchoff, M Ruttenberg

QUALITY OF DIFFERENTIAL SENSORY BLOCKADE AND LABOR ANALGESIA WITH CONTINUOUS EPIDURAL INFUSIONS OF BUPOVACAINE AND FENTANYL -- JH Chung, J Travis, R Sinatra, et al

REGIONAL ANESTHESIA, CESAREAN SECTION, AND LABOR STATUS WHY IS HYPOTENSION LESS COMMON IN LABORING WOMEN? -- RB Clark, MA Brown

A COMPARISON OF INTRATHECAL MORPHINE DOSES FOR THE MANAGEMENT OF POST CESAREAN SECTION PAIN -- V Cases-Cristobal, WE Ackerman, M Juneja, et al

INCIDENCE OF POST-DURAL PUNCTURE HEADACHE IN CESAREAN SECTION PATIENTS -- A Devcic, AM Maitr-D'Cruze, J Spring, et al

INTRATHecal NARCOTICS CAUSE HYPOTENSION DURING LABOR -- JP Ducey, KG Knape, J Talbot

CEREBROSPINAL FLUID (CSF) PHARMACODYNAMICS AND A POSSIBLE CHOLINERGIC MECHANISM OF EPIDURAL CLONIDINE ANALGESIA IN HUMANS -- JC Eisenach

THE USE OF PCA NALBUPHINE VS MORPHINE IN CESAREAN DELIVERY PATIENTS FOLLOWING INTRATHECAL DURAMORPH -- GM Fedel, L Gordon, MD Mandell, T Riley

COMPARISON OF ANESTHESIA TECHNIQUES FOR IN-VITRO FERTILIZATION -- R Fragneto, AM Bader, V Manica, et al

COMPARISON OF INTRATHECAL SUFENTANIL, SUFENTANIL/EPINEPHRINE AND SUFENTANIL/MORPHINE FOR LABOR ANALGESIA -- WM Grieco, MC Norris, BL Leighton, et al

INCIDENCE OF POST-DURAL PUNCTURE HEADACHE AT WOMEN'S HOSPITAL: 16 MONTH STUDY -- TK Abboud, J Zhu, EP Da Silva, M Donovan
