

SOAP SURVEY RESEARCH TIMELINE

The following timetable is created to help provide a timeline guide for prospective SOAP survey researchers.

All new survey requests are reviewed twice per year. Any new protocol submitted after the deadline will be considered in the next review cycle. All submissions must be accompanied by a letter of approval or waiver by the IRB/REB.

For SOAP abstract submissions in late January or February of the following year, prospective principal investigators could use either the spring or fall cycle. However, the spring cycle is recommended for those seeking the earliest timeline to allow sufficient time to complete survey development, IRB/REB approval, peer-review, revision, survey distribution, data collection, and analysis.
